

Fosroc® Nitoflor® Colour Pots

constructive solutions

(Previously known as Duraflor Colour Packs)

Colour pigments for various Nitoflor epoxy floor coatings

Uses

Nitoflor Colour Pots are used to pigment various Nitoflor epoxy based flooring products from neutral coloured bases.

Nitoflor Colours Pots are used in:

- Nitoflor FC150 HP
- Nitoflor FC150 HP FC
- Nitoflor SL
- Nitoflor SLX

Advantages

- Fast dispersion into the neutral base component
- Pre-measured for accurate dispensing

Description

Nitoflor Colour Pots are solvent-free coloured pigments supplied in 500g plastic pots ready to mix into various Nitoflor epoxy floor systems.

Nitoflor Colour Pots are available in a range of standard colours and special colours can be made to minimum order quantity.

Note: Care is taken to ensure that colours manufactured under our modern process are as close as possible to agreed reference samples. However, it should be noted that no guarantee can be given of exact colour matching.

Design Criteria

Nitoflor Colour Pots are added to the Nitoflor base components as below:

- | | |
|--------------------------------|----------------------|
| ■ Nitoflor FC150 HP 8 litre | 2 x 500g colour pots |
| ■ Nitoflor FC150 HP-FC 4 litre | 1 x 500g colour pot |
| ■ Nitoflor SL 16 litre | 2 x 500g colour pots |
| ■ Nitoflor SLX 16 litre | 2 x 500g colour pots |

Application Instructions

Mixing

Stir the base and hardener components prior to mixing. Add the required number of 500g Nitoflor Colour Pots to the base component and mix thoroughly using a low speed heavy duty electric drill and suitable spiral mixer for 1 minute.

Add hardener (and fillers) component and mix for a further 3 minutes.

NOTE: Always refer to the instructions on the particular Nitoflor product data sheet for specific details on mixing, application and limitations.

To ensure a uniform colour, use only components with identical batch numbers in the one application area.

Care should be taken in selecting colours as some will darken or develop a brown tinge when exposed to sunlight or certain chemicals. This effect is noticeable on white, light coloured and grey systems; on brown, yellow and red colours it is less noticeable.

Supply

Nitoflor Colour Pot Black 500g:	FC605135-0.5KG
Nitoflor Colour Pot Fern Green 500g:	FC605137-0.5KG
Nitoflor Colour Pot Harbour Blue 500g:	FC605138-0.5KG
