CUSTOM COLOURED SEALANTS?
YES. WE CAN DO THAT.

Now you can get the right colour for your project with Fosroc's custom colour service for Nitoseal MS250 and Nitoseal MS400. Just provide us with a sample of the colour you need and we'll match it.**

*All colours are a grade 2 match to Australian Standard colours. Colours shown are as close as possible to actual colours. Please note due to limitations of the printing process printed images may not represent the true colour and we recommend always confirming your colour choice against a product sample for final colour approval.

**Colour matches are available for typical shades associated with facade and pavement requirements. Minimum order of 360 sausages, 14-21 days lead time applies from approval of colour samples.
